WFG Net Sheets is a mobile app that was created to provide a simple and convenient way for you to calculate the net proceeds of a real estate transaction. The app is user-friendly and provides an easy-to-understand report that shows the net proceeds of your sale.

WFG Net Sheets allows you to input information about the transaction such as; purchase price, closing costs, and real estate taxes, it then automatically calculates the net proceeds of your sale. You can customize your report to include additional information like the amount of outstanding mortgages or liens on the property. WFG Net Sheets will update the report in real-time to reflect your changes.
